Honorable Jane E. Henney
Commissioner, Federal
Drug Administration
5600 Fishers Lane
Rockville, MD 20857

Dear Ms. Henney:

Please see to it that producers of livestock do not routinely add just any antibiotics to the food given animals in order to have them grow bigger.

The danger of resistant bacteria is real and growing. I beg you to consider the threat to the health of the citizens of this country. I know profits are important, but the threat to health should be paramount.

Sincerely,

Irwin Weiss
